

PRODUCT DATA SHEET

SikaRoof® SF-T-50

HIGH QUALITY VIRGIN POLYPROPYLENE SIKA TROCAL® FASTENING TUBE

PRODUCT DESCRIPTION

The SikaRoof® SF-T-50 is a high quality tube, with integral washer feature manufactured from high quality virgin polypropylene.

USES

Used with dedicated fixings to create a thermally broken fastener for the attachment of Sika-Trocal® Roof waterproofing membrane and insulation.

CHARACTERISTICS / ADVANTAGES

- Practically eliminates thermal transmittance
- Prevents the fastener head damaging the membrane, and effectively eliminates unwinding forces
- 50mm diameter washer for membrane and insulation attachment in mechanically fastened lap fixed membrane systems only.
- Unique angled tip for ease of penetration through membrane and insulation
- Manufactured from high quality polypropylene
- Purpose designed and precision manufactured in the UK

PRODUCT INFORMATION

Chemical Base	High quality virgin polypropylene
Packaging	As per current price list
Shelf Life	Will not expire under normal conditions
Storage Conditions	Must be stored between +5 °C and +30 °C in original packaging protected from direct sunlight, rain, snow and chemicals
Dimensions	Tube shaft diameter - 13.6mm Tube top diameter - 50mm Tube lengths - see current price list

APPLICATION

The SikaRoof® Tube SF-T-50 must be used as a com-

plete system with tools and accessories as suggested. Membrane should be secured in accordance with the specification, latest Product Data Sheets and project

specific Wind uplift calculations. Insulation boards must be securely fastened as per the Insulation manufacturers guidance and in accordance with SPRA and, where applicable, IMA guidelines.

VALUE BASE

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields.

ECOLOGY, HEALTH AND SAFETY

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
